8年前四處蔓延的伊波拉病毒，宛如一場惡夢般，在人們心中造成極大的慘痛。

如今，當我在繪製『致命病毒』這部作品時，BSE、SARS、禽流感等前所未聞的感染症也相繼出現，威脅著我們生存的世界。

而且，這些病毒出現的間隔似乎越來越短，這是我的錯覺？抑或事實就是如此呢？

DR. ONO-TERA !!

WHAT DO YOU MEAN, "LIKE A DOG"...

YOU WERE SO INTERESTED IN AN AUTOPSY THAT YOU RAN HERE LIKE A DOG...

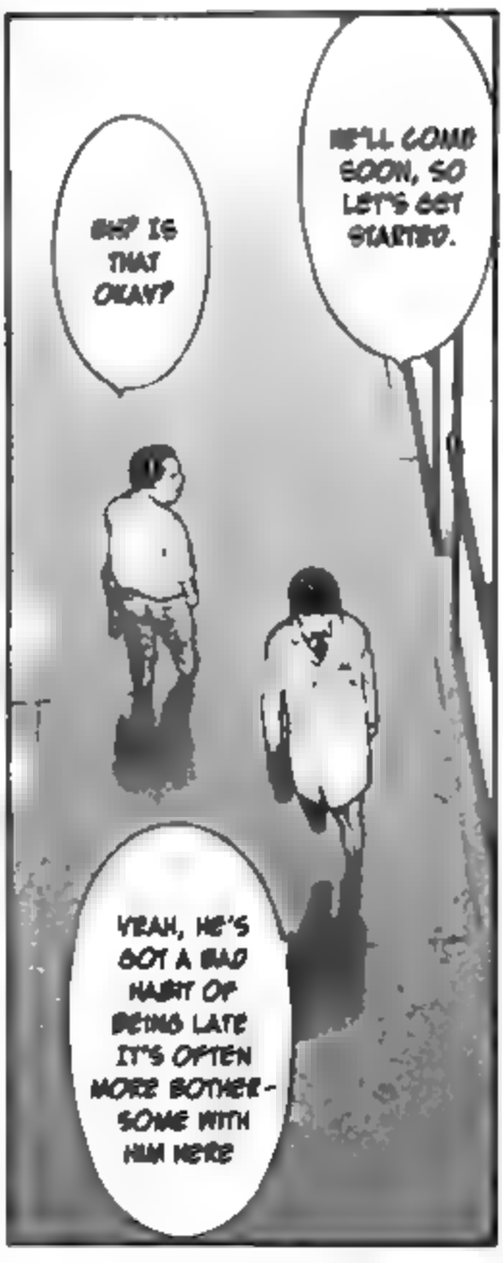
THEY'RE ALL WITNESSES TO THE EVENT



HE'LL COME SOON, SO LET'S GET STARTED.
SHE IS THAT OKAY?

WITNESSES?
ALL OF THEM?

YEAH, WITNESSES TO A BIZARRE DEATH!
BIZARRE DEATH...!!

POISONING?
WE'LL START THE INVESTIGATION WITH SUSPICIONS OF POISONING.
PLEASE BE MORE CLEAR.

WHAT ACTUALLY HAPPENED?
AN ACCIDENT? A HOMICIDE?
NO, UHH...

AFTER THEY SEE THE REPORT...
IT'S BECAUSE WE'RE NOT SURE, THAT'S WHY WE ASKED TOUZAI MEDICAL UNIVERSITY'S DOCTORS FOR HELP.
YES, BUT IT'S REALLY ANNOYING!

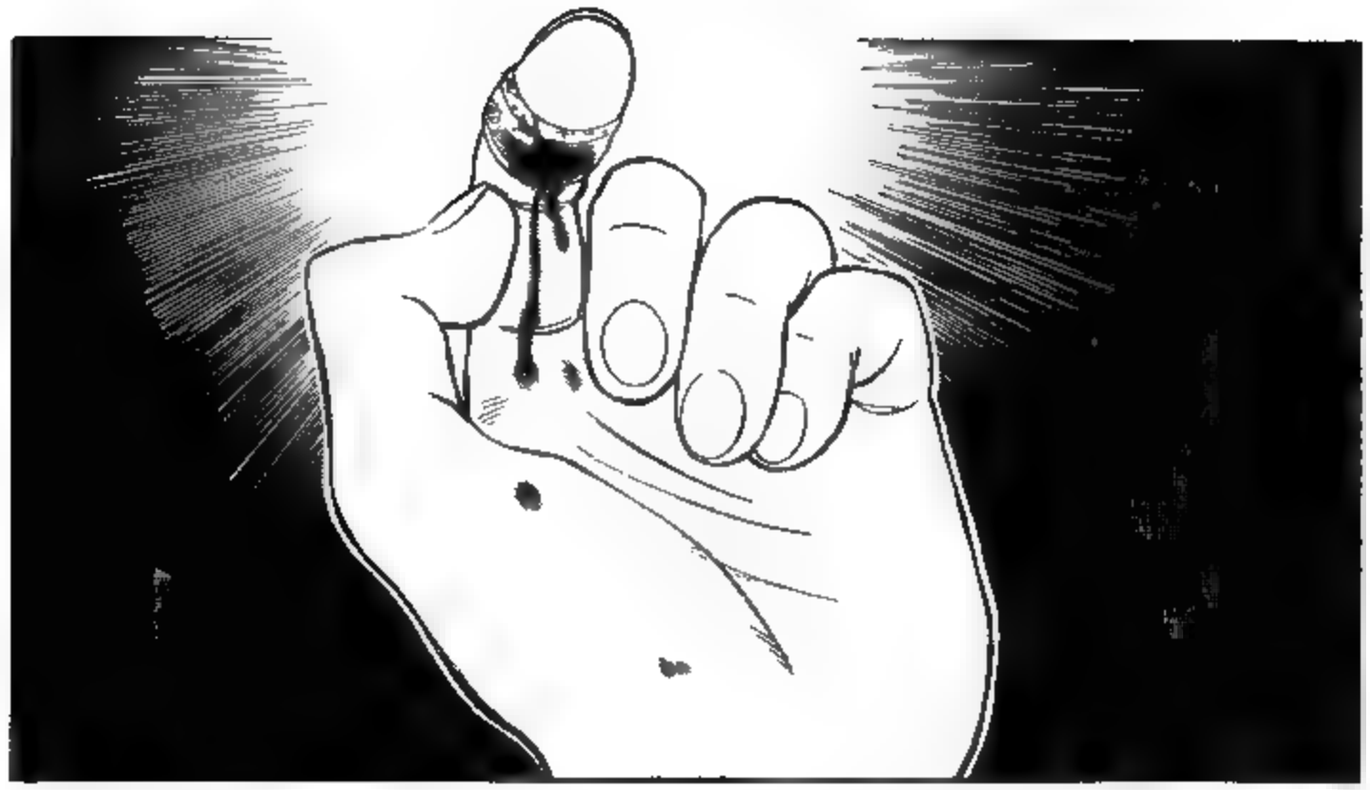
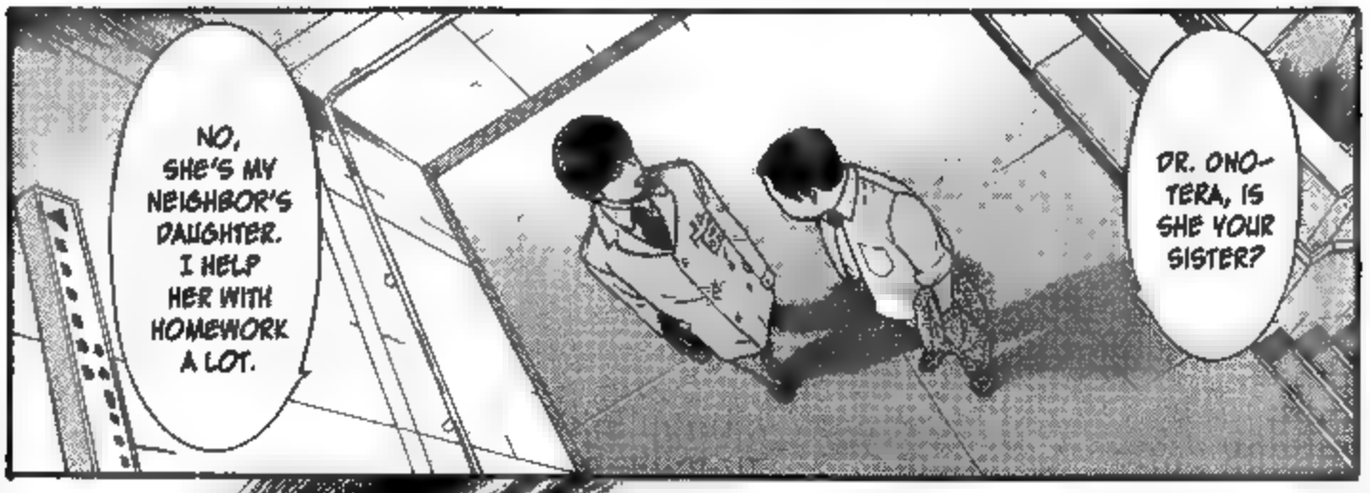
BROTHER, DO YOUR BEST OKAY?
KOKI





DR. ONO-TERA, IS SHE YOUR SISTER?
NO, SHE'S MY NEIGHBOR'S DAUGHTER. I HELP HER WITH HOMEWORK A LOT.

.....
SHE JUST TOLD US SOME VERY DISTURBING DETAILS ABOUT THE INCIDENT.

SHE SAID THAT BEFORE THE VICTIM DIED, HIS WHOLE BODY WAS "BLOATED"!
THE VICTIM WAS AT A BUSY CROSSWALK BEFORE HE SUDDENLY SPEWED MASS AMOUNTS OF BLOOD AND WENT MAD

AT FIRST WE THOUGHT HE DIED DUE TO SUDDEN POISONING.
WHEN THE PARAMEDICS GOT THERE, HE HAD ALREADY DIED FROM SEVERE BLOOD LOSS.
IT JUST DOESN'T FEEL RIGHT!
BUT EVERY TIME I LOOK AT IT...
IT'S TRUE THAT, INCLUDING ME, THERE HAS NEVER BEEN A REPORT OF A PERSON THAT DIED IN SUCH A STRANGE FASHION...

WHAT THE HELL HAPPENED TO THIS PERSON?

EVEN THE EYE-BALLS HAVE MELTED
THIS IS THE SMELL OF ROTTING FLESH
DID HE UNDERGO SHOCK DUE TO A DRUG ALLERGY? EVEN THOUGH HE'S ONLY BEEN DEAD FOR A FEW HOURS?
HIS WHOLE BODY, EVEN HIS LEGS ARE SOFT LIKE PUDDING
BUT THIS LOOKS?
IT'S GIVING OFF A BAD SMELL TOO

HOW IS THIS POS-SIBLE!
IS NO DIFFERENT FROM A CORPSE THAT'S BEEN DEAD FOR THREE DAYS!
WHAT IS THE REASON BEHIND THIS!!

THIS VIRUS MULTIPLIES EXPLOSIVELY IN THE HUMAN HOST,

WHILE BUSY DEVOURING HUMAN BODY TISSUES...

ALSO, THE VIRUS ESPECIALLY LIKES TO ATTACK THE EYES.

MY EYES!!

IT WILL CAUSE EXCRUCIATING PAIN IN THE DEPTHS OF THE EYES!

IT HURTS !!

IT HURTS !!

EVEN THE EYES ARE MELTED_

WHY THE VIRUS ATTACKS THE EYES FIRST, SO FAR NOBODY KNOWS .

THE INFECTED WILL LOSE CONSCIOUSNESS.

THE BODY BECOMES A CONTAINER FOR MELTED ORGANS AND EXTREME AMOUNTS OF VIRUSES...

AFTER THAT, THE VIRUS WILL ATTACK THE BRAIN, DESTROYING NEURAL STRUCTURES.

FURTHER SYMPTOMS ARE THAT THE ENTIRE BODY'S MUSCLES AND ORGANS WILL BEGIN TO MELT.

VERY SOON, HOST WILL ENTER THE FINAL 'EXPLOSION' PHASE.

EXPLOSION !?

BEFORE DEATH, THE HOST BODY UNDERGOES SPASMS AND THE BLOOD WILL BE SPRAYED EVERYWHERE BECAUSE OF THEM.

THE MELTED ORGANS AND BLOOD MIXED WITH THE VIRUS WILL START SPRAYING FROM THE OPEN ORIFICES OF THE BODY.

NO, PROBABLY MORE LIKE A CORONA VIRUS

THE EBOLA VIRUS IS THREAD SHAPED A COMPLETELY DIFFERENT FORM.

MORI, IT DOESN'T LOOK LIKE THE EBOLA VIRUS.

HMPH

?

SIGH ~~~

IS SHE DISAP-POINTED ?

WE CAN AT LEAST SAY THAT IT'S NOT EBOLA...

WE'RE STILL ANALYZING, BUT SO FAR THERE ARE NO MATCHES TO ANY OTHER VIRUSES.

ELISA! USING A SPECIFIC CHEMICAL REACTING ANTIBODY LINKED TO AN ENZYME FOR A CERTAIN VIRUS, WE CAN ACCURATELY PINPOINT THE IDENTITY OF THE VIRUS!!

START THE *ELISA* ANTIBODY PROCESS!

!

THEY'RE RIGHT...

START THE ELISA PRO-CESS!

UNDER-STOOD!

YES!

UNDER THE ELECTRON MICROSCOPE, IT'S NOT EBOLA, MARBURG, OR THE LASSA VIRUS...

THEN WHAT IS THE ABNORMAL LIVING MATTER IN THE BLOOD?

AT FIRST GLANCE IT LOOKS NORMAL, BUT WE'VE NEVER SEEN THIS KIND OF SHAPE BEFORE ~~~

NEVER SEEN BEFORE ——!?

COUGH!

COUGH!

COUGH!

COUGH!

COUGH!

COULD IT BE—

EYES .....

OOSHIMA ...YOU SHOULD GO BACK TO CLASS ...

UU... UUUU ~~~

OTHERWISE I'LL PASS IT ON TO YOU...

IT'S ALL MY FAULT ...I'M SORRY!

YOU WERE SICK AND YET YOU EVEN MADE LUNCH FOR ME ...

MISAKI

IT'S OKAY!

I REALLY WANTED TO MAKE IT FOR YOU...

!

NO...
NO...!

YOU'LL CATCH MY COLD!!

I WON'T CARE EVEN IF I GET INFECTED...

UU...
UUU...!

HOO

AHH

THE BLOOD SAMPLES SENT TO THE NATIONAL ATOMIC RESEARCH OFFICE WON'T HAVE RESULTS UNTIL THE DAY AFTER TOMORROW

I DIDN'T SLEEP WELL LAST NIGHT SINCE I WAS THINKING TOO MUCH.

I THINK SEKIGUCHI MUST HAVE SLEPT FAIRLY WELL —

THAT GUY IS FEAR-LESS...

MORNING.

THEN... WE HAVE THINGS TO DO!

...AH!

central

MOR... MORNING ...

WHAT HAPPENED?

MR. TOURYOU!

I'M SORRY, DOCTOR ...

IS SCARED OF BEING INFECTED BY ME_

I GET IT NOW

THE ENTIRE HOSPITAL KNOWS ABOUT WHAT HAPPENED YESTERDAY

EVERY-ONE

THAT BLOOD SAMPLE SEEMED TO HAVE SOMETHING LIKE EBOLA ...

WAHHH ---

NO WAY ----

YEAH, DR. SEKIGUCHI AND DR. ONOTERA ...

THEY EXTRACTED BLOOD SAMPLES FROM THE CORPSE AND SENT IT TO SOME KIND OF RESEARCH CENTER..

THAT'S A VERY INFECT-IOUS DIS-EASE!

ISN'T THAT A BIG PROBLEM THEN?

DR -

DR. ONO-TERA !!

PLEASE TELL THE CHIEF THAT I'M LEAVING EARLY TODAY.

WHAT'S WRONG? SEEMS LIKE YOU'RE STILL IN A BAD MOOD...

MY HEART STILL HAS A PROBLEM ACCEPTING IT.

EVEN THOUGH I UNDERSTAND, IT SEEMS...

GET AW A Y !!

AH!

UW AA A

SHIT, HE'S PANIC-ING!

AH!

RIGHT NOW, WE'RE GETTING THE SAME TREATMENT!

JUST LIKE DURING THE S.A.R.S. EPIDEMIC, FOR US DOCTORS AND NURSES ...

EVEN THE TAXIS REFUSED TO CARRY US...

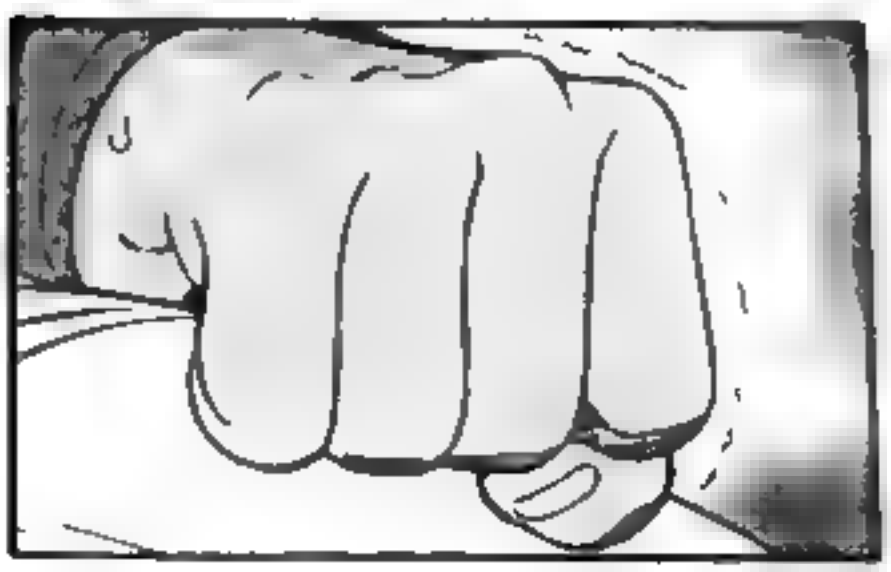
TO BE HONEST, I'M SCARED TOO.

AH!

YOU RAN TO MY HOUSE BECAUSE YOU WERE SCARED OF HEARING THE RESULTS OF THE INVESTIGATION, WEREN'T YOU?

POURING

SEKIGUCHI ....



COULD IT BE, YOU ALREADY KNOW WHAT IT IS?

IT'S SAID THAT THE EBOLA DORMANCY PERIOD IS 8 TO 16 DAYS...
EVEN IF YOU ARE INFECTED, AS LONG AS WE CAN DIAGNOSE IT BEFORE IT AWAKENS,
AND USING ANTIBODIES AND INTERFERON, WE CAN ADMINISTER CHEMICAL TREATMENT

EXACTLY, THAT'S BECAUSE SO FAR THERE IS NO EBOLA VACCINE!

IT CAN'T EVEN BE CALLED A TREATMENT!

THAT IS JUST TACKLING THE PROBLEM AFTER IT HAS STARTED,

BUT IF IT'S NOT A BIOLOGICAL MATTER, SOMETHING LIKE A VIRUS, THEN THE ONLY TREATMENT SO FAR IS TO SUPPRESS THE SYMPTOMS.

IF IT WAS PURELY BACTERIAL, WE CAN KILL IT WITH ANTIBODIES.

BIOLOGICAL BEINGS THEMSELVES HAVE A NATURAL HEALING SYSTEM, WHICH MEANS...

HOWEVER, A VIRUS WITH A 100% MORTALITY RATE DOES NOT EXIST!

IMMUNITY!

ARE YOU SAYING THAT WE CAN ONLY RELY ON IMMUNITY?

SUCCESSION!

IMMUNITY?

DID YOU OVERSLEEP?

I DIDN'T OVER-SLEEP!

HELLO... HELLO?

SORRY ....

.....

I WAS JUST JOK-ING!

WE WERE INVESTIGATING IT FOR THREE DAYS AND THREE NIGHTS.

IS THAT SO ...AHH, YOU'VE WORKED REALLY HARD...!

.....

BECAUSE THERE ARE SO MANY DIFFERENT KINDS OF VIRUSES, AND WE HAVE TO MATCH THEM UP ONE BY ONE, THIS IS JUST LIKE A POLICE OFFICER INDENTIFYING FINGERPRINTS, IT'S SO TIRING...!!

CAN WE BE POSITIVE IT'S A VIRUS?

MM, YES.

!

AND AFTER MATCHING WITH ALL SAMPLES ....

着信/充電

ALL WERE NEG-ATIVE.

Panasonic
IT'S COMPLETELY DIFFERENT FROM EBOLA OR MARBURG...
RIGHT NOW, WE CAN'T FIND ANY MATCHES WITH CURRENTLY KNOWN VIRUSES!

THEY'RE ALL NEGATIVE! ... NEGATIVE!

THEN IT'S NOT HEMORRHAGIC FEVER !!

I WAS SO WORRIED I DIDN'T KNOW WHAT TO DO ....

WHAT ARE YOU SAYING, THERE'S NO MATCH SO FAR!

ARE YOU SAYING THAT ...

IT'S A NEW VIRUS !?

..IS THAT WHAT YOU'RE SAYING ?!

YES.

A COMPLETELY UNKNOWN VIRUS.

IS IT REAL?

MANAGER, OVER HERE!

YOU AREN'T LYING, ARE YOU?

RIGHT NOW THE LAB IS IN A STATE OF PANIC.

IF THE MICE EXHIBIT SYMPTOMS ....

RIGHT NOW WE'RE GOING TO TEST IT ON MICE

SHE MUST BE HAPPILY EXPERIMENTING BY NOW? THAT PERSON IS EVEN SCARIER THAN THE VIRUS...

I JUST CALLED THE HOSPITAL,

THEY SAID WE DON'T NEED TO GO BACK ANYMORE.

SEKIGUCHI ...

OF COURSE!

MM, THAT'S TO BE EXPECTED.

OF COURSE?

WHY DO YOU SAY THAT?

EVEN IF WE'RE FORCEFULLY QUARANTINED, WE'LL HAVE TO BEAR WITH IT.

EH ...!

IF WE WERE BOTH INFECTED, IT'S VERY EASY TO SPREAD THE VIRUS TO PATIENTS WITH A WEAK IMMUNE SYSTEM.

INTERNAL INFECTION IN THE HOSPITAL!

THAT'S RIGHT!

FOR VIRUSES LIKE S.A.R.S. AND AVIAN FLU, ONES THAT CAME FROM ACROSS THE BORDER, BECAUSE WE HAVE THAT INFORMATION WE CAN RESPOND TO IT QUICKLY ....

FORCEFULLY QUARANTINING THE INFECTED, TRACKING DOWN THOSE THAT CAME IN CONTACT, THESE ARE ALL FORCEFUL LAWS LAID DOWN BY THE MINISTRY OF HEALTH.

BUT THIS TIME, LIKE NEVER BEFORE, IT HAPPENED INTERNALLY, AND IF WE DON'T RESPOND TO IT QUICKLY...

YES.

I GUESS ...

THEY WERE INFECTED AFTER COMING INTO CONTACT WITH THE BLOOD!

COULD THIS BE THE TRANSMISSION VECTOR FOR THE VIRUS THIS TIME!?

APPARENTLY, THE OTHER MEMBERS OF THE FAMILY ...

INCLUDING HER BROTHER, SISTER AND FATHER WEREN'T INFECTED ...

HMM.

I'VE BEEN TO THE SCHOOL AND HIS COMPANY ALREADY.

ALL THREE OF THEM ARE UNDER HIGH LEVEL QUARANTINE.

AND IT'S POSSIBLE IT'S NOT TRANS-FERRED BY BLOOD,

BUT BY AIR!

THE DORMANCY PERIOD IS DIFFERENT FOR DIFFERENT PEOPLE

JUST BECAUSE THEY HAVEN'T EXHIBITED SYMPTOMS DOESN'T MEAN THEY'RE NOT INFECTED.

EVEN IF THEY'RE INFECTED WITH THE SAME DISEASE,

COUGH!!

COUGH!!

SHE WON'T LAST LONG ON THE IV.

WE NEED TO TALK ABOUT WHETHER WE'RE GOING TO USE INTERFERONS.

THAT THERE'S ACTUALLY A NEW EMERGING DISEASE IN JAPAN.

AFTER SEEING THE REPORTS FROM THE RESEARCH INSTITUTE, I'M STILL HAVING A HARD TIME BELIEVING MY EYES

HER DIGESTIVE SYSTEM IS PROBABLY ALSO INFECTED

WE SHOULD TRY ENDOSCOPIC EXAMINATION.

THE ONLY THING WE CAN BE GLAD ABOUT IS

THAT UNTIL NOW, THERE'S ONLY TWO PEOPLE THAT ARE INFECTED.

A NEW EMERGING VIRUS?

YES.

THE REPORT SAID THAT JAPAN MIGHT HAVE A NEW VIRUS ON IT'S HANDS.

AT MIDNIGHT YESTERDAY, THE NATIONAL EPIDEMIC RESEARCH CENTER SENT A REPORT,

THIS IS A PREVIOUSLY UNDIS-COVERED VIRUS!

IS THIS THE WEST NILE FEVER OR S.A.R.S. THAT WAS BROUGHT HERE BY THE TRAVELLING BUSINESS MAN?

OR THE ONE WHERE WE FOUND A VIRUS ON A CROW? ...THIS IS NOTHING!

SO FAR WE HAVE CONFIRMED THREE DEATHS!

NO!

WE SHOULD REPORT THIS TO THE HIGHER UPS FIRST, THEN PREPARE A SMALL TEAM TO...

THEN WHAT SHOULD WE DO?

WE'LL OBSERVE FOR THE TIME BEING.
